

College of the North Atlantic

INSPIRING YOUR JOURNEY

CNA Global 2026

Elizabeth Vincent, Associate Vice President International

- College of the North Atlantic (CNA) is Newfoundland and Labrador's public post-secondary educational skills training institute with a history dating more than 60 years.
- We are a community and technical college with the mandate of responding to the labour force, industry, and training needs at home and abroad.
- With 17 campuses throughout NL, we fulfill our mandate by developing and delivering introductory to advanced educational programs, applied research, innovation and entrepreneurial activities that benefit communities and industry.

- CNA responds to industry, community, and individual needs across the province, throughout Canada, and around the world.
- Through CNA's research and development network, we also explore ways to explore new knowledge to promote sustainable economic activity.
- Our graduates are able to pursue rewarding, lucrative jobs doing what they were trained to do or seek transferability opportunities that promote continuing education at home and abroad.
- Our international partnerships are precedent- setting.

OUR VALUES

College of the North Atlantic's core values guide how it operates every day and are closely connected to its strategic directions. By living up to its values, CNA will provide the underlying foundation required to achieve our shared vision for the future.

EXCELLENCE

WE foster a culture of superior performance and service

DIVERSITY

WE include all individuals

RESPECT

WE treat individuals with dignity and consideration

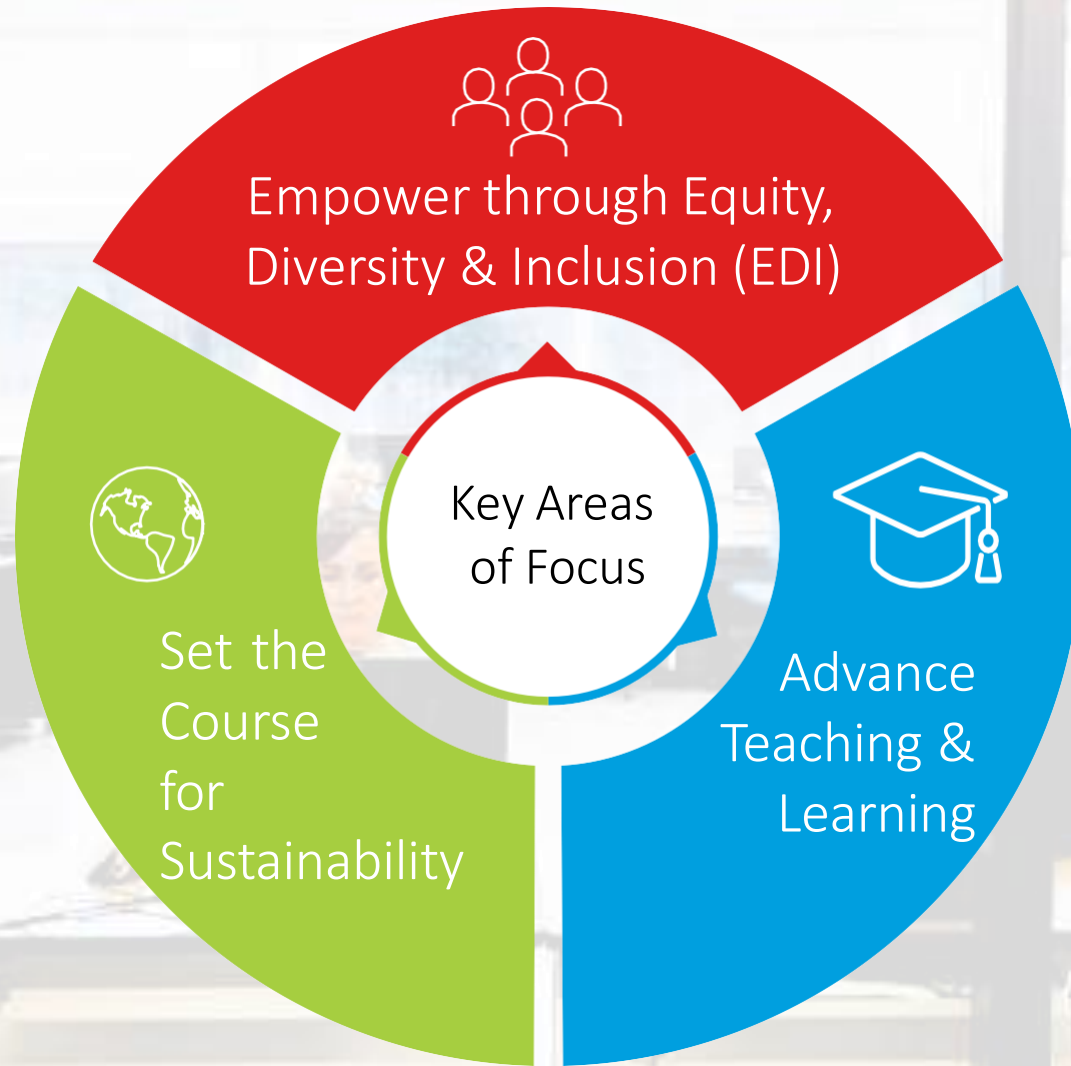

TRANSPARENCY

WE communicate in an open and truthful manner

Academic Schools

Microcredentials

Portable. Stackable. Visible.

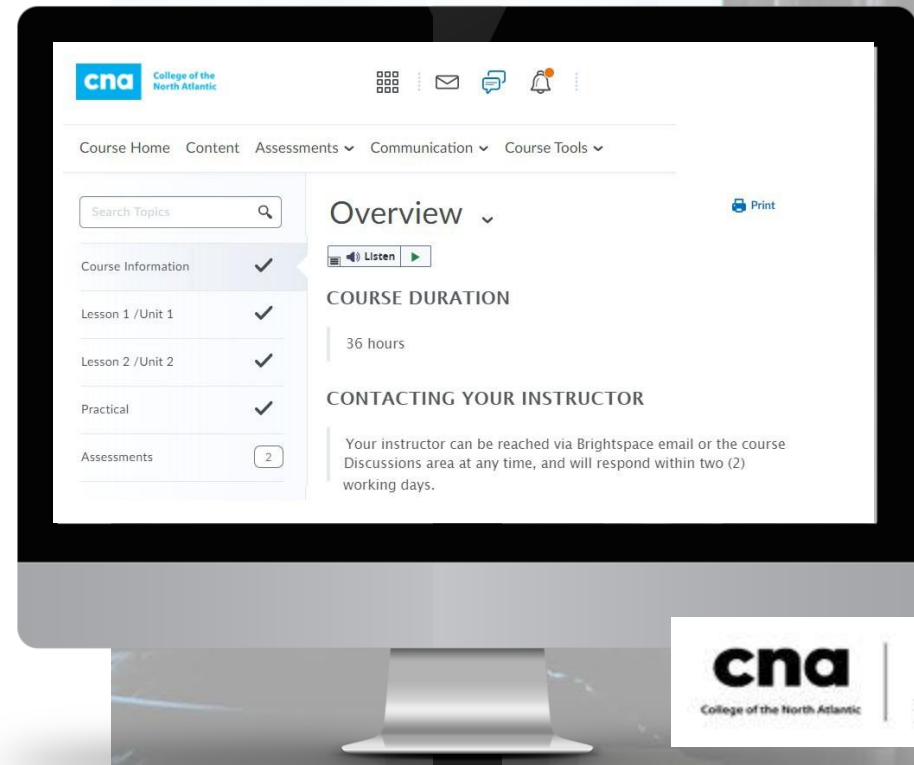

- 50+ microcredentials
- Share CNA training partnerships
- Brokered credentials with:

Post Secondary Instruction Certification

Responding to today's learner

- Ensure faculty have cutting-edge approaches to teaching and learning
- Earn a Canadian post-secondary teaching credential upon completion of the ALTI program
- Credentialed by:

Work Integrated Learning

Experiential opportunities

- Work-Integrated learning (WIL) is an approach to education that integrates practical work experience with academic learning.
- WIL provides students with opportunities to apply theoretical knowledge and skills in real-world settings and develop professional and personal skills through hands-on experience.
- These experiences last from 2 weeks up to a year and allow employers to evaluate students for potential employment upon graduation.

INTERNATIONAL OFFICE
